

For the following equipment:

**Product Description:** 240W, DIN Rail Programmable Output DC / DC converter

**Model Designation:** NDW240

Complies with the requirements set out in the European Council Directive.  
The following standards were applied:

<b>RoHS Directive</b>	<b>2011/65/EU</b>
<b>Low Voltage Directive</b>	<b>2014/35/EU</b>
<b>Safety Standards</b>	EN60950-1:2006+A11:2009+A1:2010+A12:2011+A2:2013
	EN50178:1997

**Electromagnetic Compatibility Directive 2014/30/EU**

**EMI (Electro-Magnetic Interference)**

<i>Conducted emission / Radiated emission</i>		
EN55011:2009+A1:2010		Class B
EN50561-1:2013		

**EMS (Electro-Magnetics Susceptibility)**

<i>Generic immunity standard for industrial environments</i>		EN61000-6-2:2005
<i>ESD air</i>	EN61000-4-2:2009	Level 3
<i>ESD contact</i>	EN61000-4-2:2009	Level 2
<i>RF field susceptibility</i>	EN61000-4-3:2006+A1:2007+A2:2010	Level 3
<i>EFT bursts</i>	EN61000-4-4:2012	Level 2
<i>Surge susceptibility</i>	EN61000-4-5:2014	Level 1

**Note:**

The DC/DC converter is considered as a component that will be operated in combination with final equipment. Since EMC performance will be affected by the complete system, the final equipment manufacturer must re-qualify EMC Directive on the complete system again.
