

Code	Description
CU kit	Central unit KIT <i>Central unit - can monitor up to 1024 batteries (blocks or cells)</i>
CU LITE kit	Central unit KIT (50 BATTERIES max.) <i>Central unit LITE version - can monitor up to 50 batteries (blocks or cells)</i>
"CU kit" and "CU LITE kit" include:	4GB micro SD card
	Power supply 5V/1A
	USB cable (Type A - Mini B), 1.5m long
	CD with documentation and software
DAM-H	Voltage temperature and internal resistance monitoring module for 5...18Vdc
DAM-L	Voltage temperature and internal resistance monitoring module for 1.5...5.5Vdc
IDAM kit	Current and charge cycles monitoring kit (300A max.)
Includes:	IDAM 1 module (suitable for 300A)
	Current clamp 300A max.
	Power supply 12V/0.5A
IDAM 600 kit	Current and charge cycles monitoring kit (600A max.)
Includes:	IDAM 2 module (suitable for 600A)
	Current clamp 600A max.
	Power supply 12V/0.5A
TSENSE	External temperature sensor
DAMC	0.25m long DAM connection cable (Kelvin mode) with 6.0mm C shape (fork) terminal
DAMCR	0.25m long DAM connection cable (Kelvin mode) with crocodile clamps terminal
DAMF63	0.25m long DAM connection cable (Kelvin mode) with 6.3mm faston terminal
DAMR10	0.25m long DAM connection cable (Kelvin mode) with 10.0mm ring terminal
DAMR6	0.25m long DAM connection cable (Kelvin mode) with 6.0mm ring terminal
DAMR8	0.25m long DAM connection cable (Kelvin mode) with 8.0mm ring terminal
IDAMR6	0.25m long IDAM battery supply cable with 6.0mm ring terminal
